

ASIAN HACKATHON FOR GREEN FUTURE 2026

PROTOTYPE REQUIREMENTS

- Teams must develop a working prototype, MVP, or demonstrable technical solution.
- Projects consisting solely of presentation slides, research reports, policy proposals, conceptual frameworks, or business plans without a functional demonstration will not be eligible for top consideration.
- Data dashboards and visualization tools are eligible. However, teams are strongly encouraged to demonstrate how their solution enables real-world decision-making, user interaction, operational improvement, behavior change, or measurable environmental, social, and economic impact.
- Successful solutions should clearly demonstrate:
 - A defined user or stakeholder
 - A real-world problem
 - A technology-enabled approach
 - A working prototype
 - A pathway toward measurable impact
